

# Friends Stalking for Wild Boar in France

Wild Boar in France, what a great way to spend a weekend. Jay was looking for 2 nights in France with a days Wild boar stalking, there would be a total of 4 hunters. With all the hunters having plenty of stalking and wing shooting experience, we put together a days Wild Boar stalking in Loire Valley, on private hunting grounds. Each hunter had there own stalker to accompany them during the hunt.

Following breakfast the morning after their arrival, Jay and his friends were picked up at the local chateau, and minutes later, they where in the Wild Boar hunting ground. After the introductions, and safety talk, they went off into the woods after the Wild Boar! By 11 o'clock, they had harvested 6 boar. We had also arranged that the hunters have their lunch in the hunting grounds, which really hit the spot. Then came the afternoon of stalking the Wild Boar!By dusk the team had completed there day of stalking Wild Boar, and were very happy with the days hunt, everything during the hunt had gone off like clock work. The total bag for Jay and his 3 friends was 10 Wild Boar! And as Jay put it, "A very successful and enjoyable Wild Boar Stalking trip, wouldn't you say"?
